regiment started for Bisbee by August 20, or sooner.
Captain Hobbs' telegram was based on information received from Col. Glendie B. Young and the company commanders in the Third Regiment, all of whom expressed the confident belief that within the next ten or twelve days sufficient recruits to fill up all gaps will have been enlisted.

The officers in the regiment are now offering big prices for recruits. In one company a recruit is worth 36 to the man who brings him to camp. In addition to the \$2 bonus offered by the regimental officers for each recruit, some of the captains are offering \$2 extra and the first or second lieutenant another dollar.

Eager for New Members.

All of the many militiamen sent to Washington today on recruiting duty were eager and anxious to get new members of the militia not only for the money but also to fill up the regiment so it can start for the border.

It was planned at the mobilisation camp today to send an army escort wagon, drawn by two mules, to Washington to stimulate recruiting. The officers back of the scheme planned to place several uniformed solders and a drum and fife corps in the vehicle, and also put large signs on the wagon, boosting recruiting.

Although the unofficial designation of August 29 by Captain Hobbs for the departure of the Third Regiment did not include the mounted organizations, commanders of Battery A and Troop A said they would not only be in readiness by that date but hope to be on the border then. The commanders of the mounted organizations still stick to their prediction that they will be ready early next week.

Capt. E. W. Fullam, adjutant or the Third Regiment, said today a gain of one man was made yesterday. Seven men enlisted in the infantry, while six were discharged because of dependents. The regiment now needs fifty-one men, according to Captain Fullam, and he expressed the belief that Captain Hobbs' estimate of August 20 for the departure of the regiment would appreciably stimulate recruiting.

Drill in Extended Order.

The twelve companies of the Third Infantry were given three hours of extended order work on the Fort Myer drill field this morning. This is the first day for several weeks on which the militamen have not marched ten or twelve miles and fought a hot but bloodless battle.

#### JOY REIGNS WHEN Touring Week Sends Thousands Of Motorists Out Into Open

The Great American Novel

# OF THE HIGHWAY

Betterment of Roads Everywhere Accompanied by New Conveniences.

National touring week is at its height. The great touring scheme which began on Saturday sees more cars on the road in the open country than ever before for a like period. There is no way to tell just how many owners are tour ing the highways during this great celebration, but hundreds of thousands of cars are participating.

If you own a car, get into it and stay thousands of other motorists who are heeding the call of the country.

Overhaui Car on Starting. Before starting out be sure to go over your car thoroughly. Tighten every bolt and put fresh oil in the oil cups and turn them up. A tightened nut may save hours of trouble and worry on the road. But your prepara-tion is not completed after the me-

panied by the establishment of many conveniences which add to the pleasures of motoring. One never gets far from a place at which gasolene is supplied; tires can be found at nearly any country store, and a shop at which emergency repairs can be made is usually close at hand if things happen to go wrong.

Furthermore, there has, owing to the popularity of touring, been an appreciable improvement in the accommodations offered by hotels in the small towns and villages. Good meals and comfortable beds at reasonable prices are the rule, rather than the exception, almost wherever the tourist finds it necessary to put up for the night.

The country tavern has been rehabilitated. To the liveliness and pretensions of the old stage coaching days have in many instances been added modern conveniences and up-todate service which contributes much to the enjoyment of the touring party.

Attractions Everywhere.

Attractions Everywhere. Within easy reach of almost every city in America there is some place that is well worthy of a visit from the tourist. In most cases there are many such points.

The car owner who complains that

charge of forgery was set for 3 o'clock yesterday afternoon before Judge J. Alby Henderson in police court here, waived a hearing when the case was called and was released on \$1.000 bail. If the grand jury which convenes in November finds an indictment, Mrs. Jackson may be tried at the November term of circuit court for the county. She has retained John A. Garrett, of Rockville, as her attorney.

It is charged that Mrs. Jackson forged the name of her cousin, Arthur R. Parsley, a well known farmer of the vicinity of Lay Hill, this county, to a note for \$350, and had the note discounted by the First National Bank of Sandy Spring. Officials of the bank and Mr. Parsley were in court yesterday ready to testify.

EAGLE PASS, Tex., Aug. 9.-Silver

Spring has demonstrated its superiority over Annapolis. At least so far as turning out baseball players is concerned, Silver Spring is proving how it came to produce Jack Bentley of the Nationals, by trouncing the Annapolis baseball team, to the tune of 7 to 0.
Of course the baseball that is staged here is simply an athletic chaser to in it as long as possible this week. the more substantial business of sol-Celebate with those many hundreds of diering, and Company K. First Maryland Infantry, hasn't all of the base-ball talent of Silver Spring. It has some of it, however, as was proved yesterday. Crisfield shared honors with Silver Spring, as Crisfield supplied some of the talent for the Silver

Spring team. Companies K and L, which represent Silver Spring and Crisfield, combine in a baseball team enough talent to overthrow the vain boastings of the base-ballists of Company M, which repre-

The army is going through a reorganization and consolidation. Seven new regiments of infantry are to be organized, and the transferring of men from old regiments to the new regiorganized, and the transferring of men from old regiments to the new regi-ments is bringing the strength of the old regiments down. The Third United States Infantry stationed here has bare-ly 300 men now. The Thirtieth United States Infantry is in about the same boat. Recruiting officers in Baltimore and around through the Maryland counties are not getting many men.

#### Less Butter, More Eggs, In Storage Here Now

There was 4 per cent less butter and 24.1 per cent more eggs in storage and 24.1 per cent more eggs in storage August 1 than a year ago, the office of markets and rural organization of the Department of Agriculture reported today, in the first monthly statement issued on the two commodities.

In 111 store houses, the holdings of butter aggregated 87,086,029 pounds, while 167 dealers reported their holdings of eggs to be a total of 4,797,-185 cases containing thirty dozen each.
